### What does the adoption process include?

- Our \$300 adoption fee for adult pets covers an alteration (spay or neuter), vaccinations (rabies, parvo / distemper, Bordetella), deworming, a microchip and a negative heartworm test.
- Our pets are on flea and heartworm preventative treatments
- Adult pets are leash, crate, and house trained.
- Adult pets are well exposed to and socialized with other dogs so we understand their temperament.

### How do I get started?

- You can reach us at 336.972.4511 or [info@godbeycreekcaninerescue.org](mailto:info@godbeycreekcaninerescue.org)
- You may also contact Mariam Wright at 336.403.2912
- Our placement philosophy is to match the right dog to the right family in the right environment.
- Contact us so we can understand the type of pet you seek, what works best for you and your family and your environment; and to schedule a visit.
- Complete an [adoption application](#) on our website to accelerate the adoption process. When you complete the application, it will be electronically submitted to us. An application is required prior to adoption. This way, if you visit the dog and it's a match, we often can have the background work done before you arrive and a new owner can possibly leave with the pet the same day.
- Along with your application, we ask that you send a picture of where your new pet may sleep at night, as well as the yard where they will play. This can be sent to [info@godbeycreekcaninerescue.org](mailto:info@godbeycreekcaninerescue.org)

### When may I visit?

- Because we operate with a limited staff, and we want to make sure we can give you our undivided attention when you visit, we ask that you make an appointment. Normally, appointments can occur between 8 am and noon or 6 pm to 8 pm Tuesday through Saturday.
- You can also learn a lot about us by visiting our [website](#), our [Facebook Page](#), or on [Petfinder](#). You can also view experiences from previous adoptions at the website, [Great Nonprofits](#).

### May I bring my dog?

- We encourage you to bring your existing family pets so we can introduce the pets and assess their interaction with your potential adopted pet. We do want to understand your pet's temperament prior to the visit. Please note that since we are licensed by the NC Department of Agriculture, we are required to have a copy of rabies and parvo distemper vaccinations for each pet that is brought on to our property. If you bring your pet to Godbey Creek, you'll need to text, email OR bring a copy of the rabies and parvo/distemper vaccinations. We won't retain a copy of these records but are simply required to have them available should our state inspector show up during your visit.
